

## **Do You Have the AT You Need to Participate in the 2021 Legislative Session?**

The pandemic continues to dictate our ability to travel and gather, which means your participation in Montana's political process will probably happen remotely. Do you have what you need to share your story or voice support of bills that impact the lives of Montanans with disabilities? Borrow equipment from MonTECH for 30-60 days so you'll be prepared to write, call, or testify.

MonTECH houses a wide range of equipment to help you get connected. Borrow iPads, adapted keyboards, hands-free mice, laptops, wearable speakers, headphones, webcams, voice amplifiers, or devices that allow hands-free video calls with motion tracking. Spotty or nonexistent internet? If you're in range of a cellular tower, borrow a Jetpack Mobile Hotspot and connect up to 15 devices!

MonTECH provides free shipping and return shipping anywhere in Montana, and serves any Montanan who has a disability (including learning disabilities). The program is easy to use and does not require medical verification of a disability to borrow this type of equipment. Call or write if you have questions or need help accessing our program: [montech@mso.umt.edu](mailto:montech@mso.umt.edu), 1-877-243-5511. We look forward to helping ensure you are heard during the 2021 legislative session!
